AI Developer | LLM Engineer | Agentic AI

Production AI • RAG Systems • Voice Agents • Automation

PROFESSIONAL SUMMARY

AI Developer with 1+ year of production experience building real AI systems that solve real business problems. Sole technical owner across multiple domains — architecting RAG pipelines, multi-agent systems, voice AI, and automation workflows end-to-end. Proven ability to deliver from concept to production without supervision, managing cost, performance, and stakeholder requirements simultaneously.

EXPERIENCE

AI Developer | STRIKIN

Jul 2025 – Present • Hyderabad

Sole technical owner — architecting and shipping production AI systems end-to-end:

- ▶ Built AgenticRagMCP — multi-format RAG system with 5 cooperating AI agents using LangGraph + MCP + Milvus + FastAPI; supports PDF, PPTX, CSV, DOCX, XLSX, OCR
- ▶ Developed multilingual voice agent with real-time STT/TTS (Deepgram + ElevenLabs), WebSockets, function calling, and CRM integration
- ▶ Built Email Automation Suite — 3 production SaaS products: mass outreach agent, email warmup platform (multi-tenant), and 24/7 email summarization agent (MS365 + Gemini + Twilio)
- ▶ Engineered Finance Automation Pipeline using n8n + FastAPI + PostgreSQL, reducing manual finance work by 85%
- ▶ Built AI-powered Lead Generation Agent — scrapes Google/RSS/LinkedIn, qualifies leads with LLMs, automates personalized outreach and CRM ingestion 24/7
- ▶ Functioned as product manager — tool selection, cost optimization, architecture decisions, stakeholder demos

Freelance AI Developer | Independent

Jan 2025 – Jun 2025 • Remote

- ▶ Built Yara AI (Gem) — multilingual WhatsApp RAG chatbot for Buenos Aires tourism; 15+ languages, Milvus vector DB auto-updated every 24h, live in production serving real users
- ▶ Delivered 2+ client projects including full-stack applications with AI chatbot integrations
- ▶ Conducted client requirement discussions and translated business needs into technical workflows

KEY PROJECTS

AgenticRagMCP [↗ GitHub](#)

- ▶ 5 cooperating AI agents communicating via MCP messages on shared vector database
- ▶ Supports PDF, PPTX, CSV, DOCX, XLSX, scanned PDFs (OCR), and unstructured text
- ▶ Real-time MCP Trace panel for full agent interaction visibility

Stack: Python · FastAPI · LangChain · LangGraph · Milvus · pgvector · OpenAI · Groq

Yara AI — WhatsApp RAG Chatbot [↗ GitHub](#)

- ▶ Multilingual chatbot (15+ languages) serving real users in Buenos Aires — events, bars, restaurants
- ▶ Milvus vector database auto-updated every 24 hours from live data source
- ▶ 67 production deployments; intelligent LLM fallback when data not in DB

Stack: Python · Flask · Twilio · OpenAI · Milvus · PostgreSQL

Email Automation Suite (3 SaaS Products) [↗ GitHub](#)

- ▶ Email Mass Outreach Agent — AI-powered personalization, list segmentation, automated follow-ups
- ▶ Email Warmup Agent — Multi-tenant SaaS for inbox deliverability optimization
- ▶ Email Summarize Agent — 24/7 MS365 monitoring, PDF processing, WhatsApp briefings

Stack: Python · FastAPI · PostgreSQL · n8n · Google Gemini · Twilio · JWT Auth

Finance Automation Pipeline [↗ GitHub](#)

- ▶ End-to-end automation replacing hours of daily manual finance work — 85% reduction
- ▶ Invoice processing, reconciliation, P&L reporting, reimbursement tracking — fully automated

Stack: n8n · FastAPI · Python · PostgreSQL · REST APIs
